As of July 5, 2012, there are some issues of Horizons on the national web site that are not listed in this archive.

This archive could be expanded to note the month and year of each issue, and the Volume/Number information, such as Volume 37 Number 7.

As of July 5, 2012, the May / June 2012 issue (online June 30) is Volume 37 Number 7, and the July / August 2012 issue will be Volume 38 Number 1. It is possible that this (Volume/Number) numbering was done by calendar year in the past. Now it is done by AIAA year, July 1 - June 30.

We can also inspect those old issues and fill in the Editor column in this document. Done by Douglas Yazell 2016 06 08.
