

Harvey, Ike and the Future: What Can be Done? HOUSTON | BAY AREA STORM WATER FLOOD FORUM

*Systemic floods take lives, impact our local economy and
destroy homes and communities.*

What's the best plan? It's time for action!

Are catastrophic flooding events the new normal? What's happening and what should be happening to prevent future disasters and protect our communities.

Join the conversation and spread the word! Everyone can attend this critical FREE public event to present and discuss critical solutions, for all our communities.
