2017: The 10th Anniversary*

Above: Artist's concept of interstellar asteroid 1I/2017 U1 (Oumuamua) as it passed through the solar system after its discovery in October 2017. The aspect ratio of up to 10:1 is unlike that of any object seen in our own solar system.

Credits: European Southern Observatory/M. Kornmesser.

Solar System's First Interstellar Visitor Dazzles Scientists

Astronomers recently scrambled to observe an intriguing asteroid that zipped through the solar system on a steep trajectory from interstellar space—the first confirmed object from another star. [Only the first paragraph is included here.]

2017: Le 10ème Anniversaire*

[November 22, 2017] Valentin Delas is six years old. He delivered this drawing to us on October 14, 2017. This is an inspiring example of the work of our since-2007 French-American sister sections.

[22 novembre 2017] Valentin Delas a six ans. Il nous a remis ce dessin le 14 octobre 2017. Il s'agit d'un exemple inspirant du travail depuis 2007 de notre jumelage franco-américain.
